Directions for How-to-Measure and Recommendations:

Use a soft measuring tape and snugly wrap

1. Bust: measure the fullest part with bra on and arms/elbows down
2. Ribcage/Empire Line: measure at the bottom of the bra line
3. Belly: measure the fullest part
4. Measurement time: Siri recommends that the customer be measured 9 to 10 weeks before the wear date to allow for one week shipping and 2-3 weeks for alterations.
5. Size recommendation: Order one size larger than the size determined at ordering time for growth in the next 9 to 10 weeks.

NOTES

The dye lot is not guaranteed to match the rest of the bridal party.
